

To Whom it May Concern:

The United States of America Rugby Football Union (USA Rugby) has been working with ESIX/Entertainment and Sports Insurance experts since 1999. Over the past 10 years, USA Rugby has had a strong and productive partnership with ESIX. In addition to placement of insurance products, ESIX has been instrumental in guiding our organization with regard to Risk Management issues impacting our sport and effectively providing invaluable information to help mitigate claims which are inherent in our sport.

As our sport continues to move into the Olympic movement, we rely on the expertise of the ESIX staff to continue to assist us in our Risk Management goals, which ultimately will impact our organization's growth and fulfillment of our specific mission to make Rugby an important and viable sport in the United States.

The staff at ESIX has demonstrated a depth of knowledge and commitment to USA Rugby, and continues to be a key resource to our Risk Management team. We would highly recommend this firm to any amateur sports organization.

Sincerely,

USA Rugby
